Pocket Arcade

Casual-game energy for players who download from the "Casino" chart. Bright colours, chunky buttons you can feel, characters who react, and gestures so you can play one-handed on the bus.

TYPE

- Fredoka (rounded, bold) everywhere a number or button appears
- Nunito for small UI text

WHAT CHANGES

- Players become characters with speech bubbles ("17 ✓", "BUST!", "13 …") instead of plates with status chips
- The header turns into a game HUD: coin balance with a + top-up, and a level / XP bar
- Your total is a gold starburst, and a pie timer counts down beside "YOUR TURN!"
- Gestures: swipe up to hit, swipe left to stand. The buttons stay for anyone who prefers to tap
- 3D press-down buttons, green HIT and red STAND, with plain-language captions ("one more card")
