Big Cards

Leaning in over your own spot. The camera is close, so the cards are huge and readable at arm's length, the way your own cards look when you sit at the table. Your neighbours are cut by the screen edge, and the whole table's state lives on one brass scoreboard line.

WHAT MAKES IT FEEL LIKE A SEAT

- Only your hand, the dealer and your two neighbours are on the felt, as a seated player really sees it
- The two numbers that matter, dealer 6 and your 11, are the same big size and face each other
- A brass scoreboard keeps first-to-third-base order without stealing felt space
- Black leather armrest with your chips on it, close enough to touch
